Education & Ageing

UNDERSTANDING AND SUPPORTING LEARNING FOR OLDER PEOPLE: INSIGHTS FROM EUROPE & THE UK

Annual Conference of
Association for Education and Ageing (AEA)
Thursday, 11 September 2014
at the Open University, Walton Hall, Milton Keynes

AEA's annual conference is a one-day event, bringing together academics, professionals, practitioners and older learners to explore current thinking about learning in later life. It will discuss research, innovation and practice and, this year, will focus upon European projects in which UK organisations, including AEA, have been involved. Topics to be included, particularly relevant to learning and older people, will be memory, well-being, inter-generational learning, active citizenship, reminiscence and disadvantage. All will be welcome to attend an important event in AEA's calendar at the end of the conference – the annual Frank Glendenning Memorial Lecture.

Attendance is **FREE** although places are limited. Booking is essential.

To book, and to receive directions to venue, please visit:
