

## ***Storytelling and identity in later life***

**25<sup>th</sup> Anniversary Annual Conference and AGM Thursday 22<sup>nd</sup> July 2010**  
Council Chamber, Camden Town Hall, Euston Rd (entrance on Judd Street) London WC1H 9JE

Identity is important for everyone, particularly older people. Learning in later life is enjoyed by many older people who have a strong sense of their own identity. But for others the exploration and further understanding of one's identity can be achieved through educational programmes and learning. Our conference this year will explore how storytelling can be used for this purpose in later life learning – for example, helping to assess life's experiences to date and as the starting point for further learning.

This event will be of particular interest to anyone involved in education and learning with and for older people; those who manage or fund learning; those who have some caring responsibility for an older person.

### **Programme**
