

ASSOCIATION FOR EDUCATION & AGEING INSTITUTE FOR AGEING & HEALTH-WEST MIDLANDS

JOINT CONFERENCE

LEARNING, AGEING & WELL-BEING

Thursday 21 July 2011: 10.00 am - 4.00 pm

**Birmingham Medical Institute
36 Harborne Rd, Birmingham B15 3AF**

2012 has been designated the European Year for Active Ageing and Solidarity between Generations. One of the dimensions of active ageing is healthy ageing with a focus on independent living. In this first joint conference, we will hear from a range of experienced researchers and practitioners in both health and education and gain an understanding of how learning, ageing and well-being can intersect to improve the lives of older people and the skills of professionals/carers working with them.

The keynote address will be given by Professor Chris Phillipson of Keele University who has close links with both organisations and the afternoon will feature the Frank Glendenning Memorial Lecture given by Lesley Hart, MBE, founder of the Senior Studies Institute, University of Strathclyde.

Other speakers:

- Sue Lillyman, Worcester University
- Trish Hafford-Letchfield, Middlesex University
- George Baddeley, Silver Comedy
- Carol Allen, AEA.
